Panacea Photonics High Power Systems are the new paradigm in Photonics therapy treatment protocols. No other light therapy system remotely compares to the speed of performance and photon/botanical approach we have developed & patented.

Panacea Photonics High Power Systems will enable you to treat patients you would otherwise have to turn away and allow you to perform your most effective work as a medical practitioner.

How Does the Panacea System Work?

Photon energy is capable of carrying the harmonics or vibrational frequencies of the contents of any liquid through which it passes. Different light frequencies carry varying amounts of harmonic energies with which they come in contact. The Panacea devices act as “energy transporters” to carry the photons and vibrational harmonics of the botanical liquid concentrates (bio-photonics) through which the photons pass and imparts those healing vibrational frequencies into the affected bodily areas resulting in immediate and often long-term positive results.

Panacea combines the best of Western medical photonics & electron technology with the purest natural botanicals, herbs, and amino acids to produce a bio-treatment system that represents the best combination of modern and ancient practices.

The Panacea System creates photon and amplified negative free electron energies passing through vials of multi-botanical solutions. The practitioner directs these healing energies into the affected areas of the body to provide multitudes of highly desired benefits.

These patents-pending designs have resulted in treatment systems that far eclipse the benefits of any other photonics treatment systems and provide benefits in time frames before only dreamed of.

Doctors are calling this “the treatment of the future - today!”

Nothing compares to the speed & clinical effectiveness of the Panacea Photonics High Power Systems - nothing!

All Panacea Photonics light devices run on lithium ion rechargeable battery power (DC) for the utmost in portability and come with the best warranty in the business.

One of our highly trained specialists will be happy to introduce you to what will immediately become the most important & effective treatment device in your clinical practice.

ORGANISMS
O1 - Anti-Biotic - Contains botanical blends designed to assist the body in its fight against bacterial invasion.
O2 – Anti-fungal - Primarily used with the Quantum 1000V violet light in the treatment of skin, fingernail and toenail fungal infections.
O3 - Anti-Mold - Contains botanical blends designed to eliminate mold.
O4 – Candida - Contains botanical blends designed to assist the body in clearing yeast infections.
O5 – Anti-Parasitic - Formulated to reduce parasitical invasion.
O6 – Mycoplasma - Formulated to address chronic inflammatory responses and fortify the auto-immune system against mycoplasma (viral, bacterial, fungal, mold, yeast) invasion.
O7 - Lyme Disease - Designed to strengthen immune response and assist in pathogen removal.

DETOXIFICATION
D1 - Detoxification - Designed for systemic detoxification utilizing acupuncture meridians and systemic protocol.

NEURAL
N1 – Anti-Depression – Contains botanical blends traditionally used to create a more peaceful and relaxed state of being.
N2 – Bipolar - Contains botanical blends designed to assist the brain in normalizing chemical functions.
N3 - Dementia - Contains botanical blends designed to assist the body in restoring mental processes.
N4 – Autism - Contains botanical blends designed to assist the autistic individual in overcoming rage, light or flight syndrome and other aspects of autism.
N5 – Neural Regeneration - Designed to assist the body in repairing nerve degeneration.
N6 – MS - Contains botanical blends designed to stop the advance and possibly reverse the effects of multiple sclerosis.
N7 – ALS - Contains botanical blends designed to stop the advance and possibly reverse the deteriorating effects of Lou Gehrig’s Disease.
N8 – Alzheimer’s - Contains botanical blends designed to stop the advance and possibly reverse the deteriorating effects of Alzheimer’s Disease.
N9 – Parkinson’s - Contains botanical blends designed to stop the advance and possibly reverse the deteriorating effects of Parkinson’s Disease.

VIRAL
V1 – Anti-viral – Designed to eliminate warts and other viral associated disorders.
V2 – Anti-Herpes - Targets the Herpes Simplex 1 and 2 viruses to relieve associated symptoms.
